### National Library Week – There’s More to the Story – April 23-29

National Library Week is a time to celebrate our nation's libraries, library workers' contributions and promote library use and support. The theme for National Library Week 2023 is "There's More to the Story," illustrating the fact that in addition to the books in library collections, available in a variety of formats, libraries offer so much more. Many libraries now lend items like museum passes, games, musical instruments, and tools. Library programming brings communities together for entertainment, education, and connection through book clubs, storytimes, movie nights, crafting classes, and lectures. And library infrastructure advances communities, providing internet and technology access, literacy skills, and support for businesses, job seekers, and entrepreneurs.
